

We have found that KBHS (Kelston Boys High School) provides a great friendly environment for our son. This starts with the house system and tutor classes which enable younger students to mix with senior students, resulting in them being able to settle into High School quickly.

The principal, board and staff run the school smoothly based upon a solid foundation of family values ensuring all students are able to reach their maximum potential.

We feel privileged to be part of the Kelston Boys community and are proud of any of the boy's successes.

We are so grateful that Sean has been given every chance to excel in the sport he enjoys. He has been able to apply the lessons learned from sport to his academic studies with very pleasing results.

By the time he leaves KBHS we feel confident that he will have the necessary skills to succeed in his field of choice.
